April 15, 2022

Dear Representative Joyce:

Thank you for your request for a statement in support of the PREPARE Act. In answer to the request, we at the Council for Federal Cannabis Regulation offer the following:

*The Council for Federal Cannabis Regulation (CFCR) supports the Preparing Regulators Effectively for a Post-Prohibition Adult Use Regulated Environment (PREPARE) Act. This bipartisan legislation takes a pragmatic and responsible step forward as our nation prepares to end decades of cannabis prohibition. We support this act and encourage others to do so, because this legislation allows for insightful civil discussion and is inclusive of all stakeholder voices. CFCR is an umbrella organization of existing and potential beneficiaries of this new industry. We are dedicated to assisting the government, and specifically federal regulatory agencies, to rethink, develop, and implement evidence-based cannabis regulations. We believe this legislation is consistent with our mission and we offer our support in favor of passage of the PREPARE Act.*

Sincerely,
